IMMIGRATION – PERMANENT RESIDENTS

According to Citizenship and Immigration Canada, in 2006, 89 immigrants selected a location in the West Yellowhead Region as their destination of choice on their permanent residence application form.

Please note: This figure does not include temporary foreign workers, students or temporary residents. Also, those that selected a certain province as their destination of choice on their permanent residence application are not required to move to the province indicated. This means that there could potentially be data missing due to immigrants indicating once province as their destination and then actually moving to another.

The annualized percentage growth in immigration from 1997 to 2007 for the West Yellowhead Region was 6.8%. The annualized percentage growth from 1997 to 2007 for Alberta was 4.8%. The total change for the West Yellowhead Region was 9.2% (8) between 2002 and 2007, and 93.9% (46) between 1997 and 2007.

LABOUR FORCE CHARACTERISTICS

According to the Statistics Canada Labour Force Survey, the West Yellowhead Region employment rate for the working age population of 15 years and older was 71.9% in 2007 and the participation rate was 74.7%.

In 2007, the West Yellowhead Region's employment rate for the 15 to 24 year old age group was 64.5% and the participation rate was 70.2%. In that same year, the unemployment rate for the working age population of 15 years and over was 3.6%. Alberta had the lowest unemployment rate of all provinces in 2007 at 3.5% - well below the national average of 6.0%.

Between 2006 and 2007, the number of people employed in Alberta grew by 4.7% or by 88,700. Over that same period employment in the West Yellowhead Region grew by 4,400 or 7.4%. Between 2002 and 2007, the number of people employed grew by about 289,000 or 17.2% in Alberta, and by .6,500 or 11.3% on the West Yellowhead Region.

In 2007 Alberta made up 10.3% of Canada's working age population (15+ years), and the province created nearly one quarter (23.2%) of all new jobs in Canada. Alberta created nearly as many new jobs as Ontario (88,700 vs 101,100), which has more than three times the working age population of Alberta.

N/A = data are suppressed due to insufficient sample size.

Statistics Canada cautions the reader that the regional labour force data may be subject to large year-to-year fluctuations, especially for the smaller regions, for the following reasons. First, there are no population control totals for special geographies such as these regions. Second, some of the smaller regions have small sample size, leading to greater volatility in the estimates. Third, Statistics Canada periodically redesigns its survey methodology; the latest redesign was done in 2005.

EMPLOYMENT BY INDUSTRY

In 2007, according to Statistics Canada Labour Force Survey, the services-producing sector in the West Yellowhead Region accounted for 56.5% of the total number employed.

The Forestry, Fishing, Mining, Oil and Gas industry continued to have the largest number of individuals employed. In the West Yellowhead Region, this industry is dominated by the Oil and Gas and Forestry sectors. It is followed by the Construction, Retail Trade and Manufacturing industries

This inventory lists projects in Alberta, valued at $5 million or greater, which have recently been completed, are currently under construction, or are proposed to start construction within two years. Not all projects over this threshold are listed due to reasons of confidentiality and/or due to information not being available at time of printing.
2. Project data is obtained from public information sources. Although, where possible, this data has been verified with the project proponent/developer, users of the Inventory may wish to confirm project data with the proponent/developer.
3. The inventory does not breakdown project expenditures by any given year. The cost of the project is the value of expenditures expected over all phases of project construction, which may span over two or more years.
4. The cost of projects listed in the Inventory are estimated values only.

Economic Indicator Definitions
1 Dependency Ratio – The percentage of the population below the age of 15 (Child) and over the age of 64 (Elderly) divided by the number of adults (15 – 64). This is the population of children and elderly that are dependent on the adult population for economic needs.
2 Old Age Dependency Ratio – The percentage of the population over the age of 64 (Elderly) divided by the number of adults (15 - 64).This is the population that is dependent on the adult population for economic needs.
3 Permanent Immigrants – Citizenship and Immigration Canada's (CIC) count of where immigrants are landing within the province of Alberta. This includes spouses, dependents, entrepreneurs, investors, self employed, refugees and family sponsorship. This does not take into account those that land in other Canadian provinces and then move to Alberta.
4 Annualized Percentage Growth, 1997 - 2007, 10 Years (%) – The average annual increase in immigrants over the 10 year period.
5 Labour Force Characteristics – Drawn from Statistics Canada's Labour Force Survey (LFS) or from the Census. The LFS is the source of current, monthly, and annual estimates of total employment (including self-employment) and unemployment. Allocating existing LFS respondents to Economic Indicator Regions results in insufficient data for certain regions (i.e. Insufficient sample sizes). **LABOUR FORCE:** Persons who are 15 years or over that were not institutional residents that were either employed or unemployed for the year. Labour Force = Employed + Unemployed. **PARTICIPATION RATE:** Number of persons from the labour force expressed as a percentage of the population aged 15 years and over. Participation Rate = (Labour Force / Population 15 years and over)*100. **UNEMPLOYMENT RATE:** Number of unemployed persons expressed as a percentage of the labour force. Unemployment Rate = (Unemployed / Labour Force)*100. **EMPLOYMENT RATE:** Number of employed persons expressed as a percentage of the population 15 years of age and over. Employment Rate = (Employed / Population 15 years and over)*100.
6 Employment by Industry – Based on the LFS or Census data. Industry and occupation codes are assigned using the respondent's job description on the questionnaire. Codes assigned are based on the classifications described in the North American Industry Classification System (NAICS 2002).
7 Income (2006) **Individual Income:** Gross income for individuals filing income tax in Alberta in 2006. **Couple Income:** Gross income for people that defined themselves as married or common law when filing the income tax in Alberta in 2006.
8 Per Capita Building Permit Value ($) - Total value of building permits for a region divided by its population.
9 Establishments with Employees – Business establishments are presented by the North American Industrial Classification System (NAICS) industry codes. Commercial industries are included as are several in the public sector (schools, universities, hospitals, government offices, churches, service clubs, etc.)
10 Small Business Establishments – Business establishment with less than 49 employees and at least one employee. This does not include individuals that are self-employed.
11 Major Projects – As of December 2008, a list of major development projects in Alberta that are valued at $5 million or more that are planned, currently under construction or recently completed. Project data is obtained from public information sources. Updated information is added monthly, the print edition is updated quarterly.
